

December 28, 2014

Dear Member,

Season's greetings!

Thank you for subscribing to our website.

In the season of festivities, we are aware that it is at times tough being on a special diet. It is our endeavor to work towards creating resources and providing safe options such that one day a celiac can be part of festive celebrations, just like others, without worrying about food.

That's our dream for you and goal for ourselves at Celiac India. We have already started our interactions with food and medical experts and celiac support organisations across the world.

We are pleased to inform you that content from our website has been presented on www.vikaspedia.gov.in, a portal established by Government of India as part of India Development Gateway (dedicated for providing information and ICT based knowledge products and services in the domain of social development).

Some of our other initiatives with industry players are under way and we will share details with you soon. Please visit our [website, www.celiacindia.org.in](http://www.celiacindia.org.in) and facebook page, <https://www.facebook.com/CeliacIndiaandBeyondFoundation>, for updates.

We look forward to your continued support.

Sincerely,

*Dr. Pankaj Vohra
